

Cooking Fire Safety

Cooking fires are the number one cause of home fires and home fire injuries. Know how to prevent a kitchen fire and what to do if you have one.

Clean cooking equipment after each use. Crumbs in a toaster or grease on the stove can catch on fire.

If you have a fire in your oven, turn it off. Let the contents cool before cleaning.

If you have a fire in your oven and the flames escape it, leave your home and call 911.
